

HFC-GOLD

High-Flow Nasal Cannula

Comfort. Versatility. Quality.

The **HFC-GOLD High-Flow Nasal Cannula** is engineered with both the patient and clinician in mind for optimum comfort and ease of use. The versatile design allows the clinician to apply and adjust the cannula even in the most challenging patient positions. Once fitted, the patent-pending HFC-GOLD delivers consistent high-flow oxygen therapy throughout the treatment.

- Soft contoured interface eliminates pressure points
- Flexible, ergonomically-designed headgear for a snug fit to the face and head
- Multiple adjustment points improve fit and reduce pressure points
- Compatible with other devices
- Swappable side access
- Patent Pending

**Making it easier
for clinicians to make
a difference.**
